

BIGYAN ACHARYA

Frontend React Developer

<https://github.com/bigyan123456> | <https://bigyan123456.github.io/Portfolio/>

PROFESSIONAL SUMMARY

Frontend React Developer and fresher with hands-on internship and project experience building responsive, user-friendly web applications. Skilled in React, JavaScript, HTML, CSS, Tailwind CSS, REST APIs, Git and Vite. Built practical projects including an Employee Management Dashboard, Jersey Hub e-commerce website, Weather Application and personal portfolio. Strong interest in clean UI, reusable components, API integration and continuous learning.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS

Tools: Vite, Git, GitHub, VS Code, npm

React: React Router, Context API, Hooks, Reusable Components, Local Storage

API & Libraries: REST APIs, Axios, React Icons, React Toastify, Chart.js

Familiar With: Node.js, Express.js, MongoDB, postgres

SELECTED PROJECTS

Employee Management System (EMS) | *React.js • Tailwind CSS • React Router • Context API • LocalStorage*

Professional employee dashboard with CRUD operations, employee search/filtering, dashboard statistics, settings and responsive layouts.

- Built reusable React components and Context-based state management for employees and theme settings.
- Implemented add, edit, delete and employee-detail workflows with persistent browser storage.
- Created dashboard statistics for total employees, departments, active employees and leave status.

Jersey Hub — E-Commerce Website | *React.js • Tailwind CSS • REST API • JavaScript*

Modern e-commerce experience for browsing jerseys, viewing product details and managing shopping actions.

- Developed responsive product-focused UI with reusable React components and mobile-friendly layouts.
- Implemented product browsing, product details, cart and favorites functionality.
- Focused on clean navigation, responsive styling and a smooth user experience.

Weather Application | *React.js • REST Weather API • Axios • Tailwind CSS*

Responsive weather application that retrieves live weather information from an external API.

- Integrated a weather REST API to fetch and display location-based weather data.
- Handled API loading/error states and presented weather information in a clean responsive interface.
- Built the interface with reusable React components and responsive Tailwind CSS styling.

Personal Portfolio Website | *React.js • Tailwind CSS • Vite • React Icons*

Personal developer portfolio showcasing skills, projects, experience and contact information.

- Designed a responsive portfolio with reusable sections including Hero, Skills, Projects, Contact and Footer.
- Implemented light/dark theme support and responsive layouts for desktop and mobile screens.
- Optimized the project structure for maintainability and deployment with Vite.

EDUCATION

[BIT] | [Herald College Kathmandu] | [2026]

CORE STRENGTHS

Responsive UI • Component Reusability • API Integration • Problem Solving • Team Collaboration • Continuous Learning
